

*This form must be completed if an organization wishes to deploy the stretch suggestions of RSIGuard but wishes to omit the Stretch Setup Wizard page that includes important information for RSIGuard users about when it may be inappropriate to conduct some stretches.*

## **Release of Liability**

As an authorized agent for \_\_\_\_\_ (*your organization's name*), hereafter referred to as Organization, I/we hereby release Remedy Interactive, Inc., its officers, employees, and agents, from any and all liability for sickness or injury which might be associated with the use of the stretch component of RSIGuard. The Organization is aware of the potential risks of conducting stretches, especially if a stretch causes discomfort or is conducted by a person with an injury, including, but not limited to, exacerbation of pre-existing injury, ligament injuries, nerve injuries, or tendon injuries. The Organization knowingly has requested that a warning regarding this risk be removed from the initial setup & training component of RSIGuard. Furthermore, the Organization acknowledges that Remedy Interactive, Inc. advises against removing this information page from the setup process and that the Organization is knowingly and consciously acting against this advice.
